Don't worry about being famous or making money; the most important thing is being the best. You have to become a master of your craft, and everything else will come.

Honoring the BEST

Supporting the local community

By LAURIE STUART

For the last 25 years, we have reached out to our readers and asked them to identify who they thought was best in a multitude of categories. The contest is a way to highlight and celebrate the people, the businesses and the organizations that provide us with our goods, services and entertainment. At its best, the contest can engender a friendly competition to go one step further and to fully embody what it means, to us, to be our best.

This past year has not been easy for many businesses. Some have closed; some have pivoted to do things they never did before. Others, especially service providers, have been inundated with more business than they can handle. As a new generation of residents flocks to the valley, the services that are provided through small local businesses are imperative for our community's survival and resilience.

Change is in the air and, at the same time, there is a continuum. There is a flavor of community that is reflected in our local businesses, service people and organizations. Each, in their own way, reflects their passion and their vocation. Each makes up a collective whole that is local and particular to this community.

Local is important. A sense of place is essential. It is something that we need to own. This is something that we need to inhabit and support.

Here are some reasons why.

By supporting local businesses, we support the local economy; significantly more money stays in a community when purchases are made at locally owned establishments.

Independent retailers return more than three times as much money per dollar of sales to the community in which they operate than chain competitors. Independent restaurants return more than two times as much money per dollar of sales than national restaurant chains.

In addition, there are also notable intangible benefits that come from supporting businesses. Local businesses are owned and operated by our neighbors! They care about and are invested in the well-being of our community and its future. They support our nonprofits and volunteer emergency services corps and departments.

While it may be true that there are some things that can only be found online, we need to balance those purchases with what we can obtain locally. If we don't support local, there will be no local. It's that simple.

In the year ahead, I hope you will join me in making the commitment to check out what's available in our local market, support it when you can, and thank the proprietors for their tireless work and commitment to providing for our communities.

Start today as you peruse the Best of 2020 for 2021.

Shohola Chiropractic for 43 years!

This mother/daughter practice offers a full spectrum of alternative and holistic health care modalities including chiropractic care, applied kinesiology, functional medicine, Chinese/American herbals, homeopathy, emotional techniques, whole food and nutraceutical intervention, diet recommendations, lifestyle intervention, sensitivity testing, iridology, acupressure, acupuncture meridian therapy and more.

The doctors have a special interest in supporting chronic conditions and autoimmune diseases; having spent much of their time attending seminars with top providers from across the U.S focused on blood chemistry, endocrinology, immunology, and nutrition. Common complaints range from kidney stones to infertility, constipation to chronic sinusitis, thyroid disorders to rashes, and of course musculoskeletal issues.

Dr. Lorraine Spinard, who has been in practice for 42 years, has been joined by her daughter Dr. Nadege Hoepfer. Initial consults are at least 1 hour and each follow up appointment is 30 minutes.

Feel confident knowing that if these doctors don't know how to address your complaint; they know someone who does!"
